NEW WHOLESALE HOUSE

IS OF LARGE PROPORTIONS

Revillon Bros'. New Building Will Accommodate One Hundred Car Loads of Freight.

The new wholesale building and warehouse of Revillon Brothers, Limited, are rapidly nearing completion and when the finishing touches are put on in a few weeks they will have a wholesale building that will equal if not excel in point of arrangement, labor-saving devices, compactness and attention to detail, any wholesale house in Canada, being modelled on the plan of the great Chicago house of Marshall, Field & Co. The new wholesale is a brick building, one story and basement, 125 x 100. Right through the centre of the wholesale and through the warehouses, runs a ten foot passage, down which a track will be laid, enabling the goods from each department to be conveyed to the packers and shippers, or distributed to the different departments as the case may be.

Entering from the old wholesale on the right is the packer's room, in the centre of which, back to back, with an alley about three feet wide, between them are the packers' tables, with movable division boards to accommodate parcels of different sizes, while underneath are cupboards containing the packers' requisites, dining away with the paper and wrappings on the floor, in which small articles are so often lost. A typewriter will be placed on a track between the benches and as the different articles are wrapped accurate tab can be kept by the operator. On one side a bench is reserved exclusively for the northern trade.

The shipping room is next and is fully equipped with all the modern devices, while against the south wall behind the glass partitions are the offices of the manager, stenographer, head shipper and packer.

The receiving room occupied the rest of the space on the south side of the wholesale. Jack-knife doors, opening and automatically stowing themselves overhead out of the way, allow the goods to be quickly sorted and sent to their different departments.

In the front of the building are the wholesale hardware and grocery departments, where the space from floor to ceiling is piled full of the best the world produces in these various lines. Here also are the offices of the buyers, for the hardware and grocery departments, and also sample rooms for the accommodation of customers.

These electric lifts and a stairway give easy access to the basement where large rooms are filled with canned goods etc. Against the south wall three specially constructed rooms are provided, two of which, with a splendid system of ventilation, are used for the storage of butter and eggs, and the other will be used as a bonded warehouse, where tobacco will be kept. Another compartment is provided, where the "broken goods," goods the cases of which have been broken or some of the articles removed, will be kept. Here, among other things, were some choice boxes of cigars, called "Lords of England," the wholesale price of which is over \$250,000 a thousand.

The building is heated throughout by steam and lighted by electricity. Fire extinguishers are conveniently placed, and everywhere are evidences of the up-to-date business house.

Three warehouses, A, B, and C, adjoin the wholesale on the south side; "A" containing flour, sugar, salt, matches and wooden ware; "B" glass, cement, wire netting and heavy hardware; "C" bar wire, nails, rope and iron.

With the facilities provided the firm expect to save fifty per cent of the cost of handling goods and, buying in the quantities they do, will be in a position to successfully compete with any wholesale house in Canada. One hundred cars of freight, it is estimated, can be easily accommodated in the new building. This is a first step towards making Edmonton the real wholesale and distributing point west of Winnipeg and placing her to the front in the position long dreamed of by the far-sighted shrewdness, the chief centre of commerce between Winnipeg and the coast.

IRVING IS NO MORE

GREAT ACTOR PASSES AWAY

English-Speaking World Loses Its Greatest Actor—Died in Harness

London, Oct. 13.—The English-speaking world has suffered an irreparable loss by the sudden death tonight of Sir Henry Irving. Sir Henry died in harness. He was giving farewell performances in the English provinces and was playing an engagement at Bradford, appearing in several favorite roles. Thursday he presented "The Belshazzar" in excellent health, taking the exuberant part of Mathias with all the vigor of youth. Tonight, before an enthusiastic audience he portrayed one of his most characteristically intellectual parts, the title role in his own stage adaptation of Lord Tennyson's "Becket" with marked success. After the performance Sir Henry returned to his hotel, reaching his rooms at 11:30 when it was observed that he was in great pain. Physicians were immediately summoned, but before they could arrive Sir Henry was seized by an attack of syncope and expired, without having uttered a word. Sir Henry was born in 1838.

LABOR MAN PLEASED

Ottawa, Oct. 13.—John Burns, member of the British House of Commons, arrived today after a trip to the Pacific Coast. He had a long conference with Sir William Mulock this afternoon, when labor matters were discussed. In the afternoon Mr. Burns visited the experimental farm, and in the evening dined with Sir Wilfrid Laurier, some of the other ministers also being present. The British M. P. is greatly pleased with the work of the labor department. He says that Sir Wilfrid Laurier, who is expected to leave for England early next week.

THE FORT NEWS.

(From the Reporter)

There are now several residences in course of erection in the east end of town.

The new elevator of the Brackman-Milling Company is nearly completed and is an imposing looking structure.

A. T. Chambers & Co., have just completed the installation of a furnace in Wilkins & Jones store, and one in the Mounted Police Hospital.

R. Walton, of Calgary, at one time manager of the Cushing Bros. Co. here, arrived on Tuesday last on a business trip. He expects to be here for about three weeks.

Frank Kito, of Edmonton, accompanied by his uncle, Wm. Rea, of Port Perry, Ontario, passed through the Fort on Monday enroute to the Vermilion on a pleasure trip.

Dr. R. F. Golden, dentist, has decided to permanently locate in the Fort. He can be found at Queen's Hotel or at his office over Shera & Co's store.

New sidewalks are being built on Dennis avenue from Griesbach street to Burleigh street on the north side and from Tine's street to Burleigh street on the south side.

Fred W. Ervin, travelling agent for Cushing Bros. Co., Ltd., passed through the Fort Wednesday enroute to Vegreville and other points east.

PUBLIC MEETINGS

Public meetings in the interests of the candidature of J. R. Boyle will be held at the following places on the dates mentioned:

Poplar Lake school, Wednesday, October 18th, 7:30 p.m.

Nash school, Thursday, Oct. 19th, 7:30 p.m.

Bon Accord school—Saturday, October 21st, 7:30 p.m.

The meetings will be addressed by Hon. C. W. Cross and Mr. J. R. Boyle. Mr. Knight, or a representative is invited to be present and address the meetings.

SURVEYORS DROWNED

DISASTER TO ANOTHER G.T.P. PARTY

Six Men Upset From a Canoe and Four Perished in the Icy Water.

Kenora, Oct. 13.—Another catastrophe took place among the G. T. P. surveyors in New Ontario today, when a party of four men of Chief Engineer Miles' outfit, were drowned in the Winnipeg river while moving camp nearer to this town. Twenty men were in four canoes and one turned over while out of sight of their companions. In the boat were Frederick Crookes of Vankeel Hill, John Brown, of Fredericton, N.S., Porter of Ottawa, E. C. Moffatt of Peterboro, Herbert Gibson, and Anton Larsson, a Norwegian. Crookes and Porter sank immediately, the water being so cold as to make swimming almost impossible. Larsson and Moffatt essayed to reach shore, but the Norwegian, though a powerful swimmer, was taken with cramps and sank. Moffatt then turned back and pulled Brown back on top of the overturned boat. Brown, however, was exhausted with the cold and slipped off and was drowned. Gibson and Moffatt after hours of awful agony in the icy river eventually reached land, hanging onto the upturned boat. All the other boats but one, being nearly ashore, thought they were Indians in a dugout and passed them but the fourth boat went to their rescue and with some difficulty resuscitated Gibson. May or Hodgins, and the divisional engineer, have gone to the scene with grappling irons at a big search party. This is the third wholesale drowning accident the G. T. P. has suffered this season, one being the loss of Major Sinker and party in Manitow Lake.

EARL SPENCER STRICKEN

London, Oct. 12.—Earl Spencer, Liberal leader in the House of Lords, was stricken with paralysis today while at his shooting box at Fazenham, Norfolk, and is now unconscious.

THREE C. P. R. WRECKS

Winnipeg, Oct. 14.—Three wrecks occurred on the C. P. R. between Fort William and Winnipeg this morning. The west bound passenger train ran into an open switch at Karlstad and a freight train was derailed at Sunshine. Four box cars were demolished in a head-on collision near Dexter. No one was seriously hurt in any of these pile-ups, but passenger trains east and west were delayed for several hours.

GRAVE ROBBERS

London, Ont., Oct. 13.—Albert E. McKay, trustee of the Poplar Hill cemetery, while going through the burying grounds, found that the remains of a late respected farmer of Lobo, Geo. Graham, had been disinterred. McKay was accompanied by a stone cutter and as the two men passed a certain plot of ground they perceived a strong odor. They made their way into the plot and saw the decomposed hand of a corpse protruding from one of the graves, and it was apparent the grave had been dug up.

BRITISH SQUADRON VISITS

Yokohama, Oct. 11.—The British squadron under command of Admiral Sir Gerard Noel, arrived here and was welcomed amid scenes of general enthusiasm by Admiral Shimamura. The squadron entered in single column, the ahead, torpedo boat destroyers leading, and took up an anchorage facing the shore. Salutes were exchanged between the Japanese and British flagships. The British flagship, Admiral, Admiral Shimamura then went on board the "Diamant." Admiral Noel later visited the "Diamant." A party of 1300 officers and men then landed.

THE ISSUE IN ALBERTA.

The issue of Alberta today is not the school question nor the land question; the issue is whether the electorate will endorse a Government pledged to a policy of expansion and development along every avenue of Provincial life or will defeat that Government to place in power a party with no working maxim save agitation and no prospective policy save a law-suit.

When some weeks since the delegates of the Conservative party met in convention in Red Deer they adopted a series of resolutions supposed to assert the principles to which they adhered and the policy which they desired to see carried into the administration of Provincial affairs. But so far as Mr. Bennett and his friends are concerned, the convention might as well have never been held and the resolutions never passed. So far from basing their campaign upon the deliberations supposed to embody the collective wisdom of the party on matters political the Conservative leader and his friends, neither publicly proclaim these doctrines nor give them the standing and evidence of unequivocal public approval. For the campaign purposes of the Opposition there are only two questions of importance to Alberta electors and on neither of these have they informed the electors what course they would pursue if returned to power.

The Provincial Government on the other hand stands pledged to the inauguration of a policy of advancement and development in every sphere of Provincial affairs. Their policy is a policy of initiative; their purpose the accomplishment of actual results and the attainment of definite ends by the energetic application of the most suitable means. Against the proposal to incur costly litigation for the settlement of a disputed theory they stand for the application to the actual conditions of the case, the means which have been found efficient, and in opposition to the proposal that the primary business of a Provincial Government be neglected or ignored while we make war upon the Federal Government for the possession of a domain which we could not utilize, they stand for the concentration of attention on those matters of pressing and primary importance, the solution of which will alone make smooth and straight the path-way of Provincial life.

The public needs of a new country are essentially real and practical, and only in so far as these are met by a policy of energetic accomplishment can the foundations be laid for symmetrical and continuous progress and prosperity. The conditions of life in the west are plentifully interspersed with disadvantages and difficulties, and only in so far as its policy provides for the removal or amelioration of these within the proper range of Government duty is a party worthy of support. The settlers of Alberta are less concerned in the fine points of constitutional law than in the condition of the roads and bridges which they must traverse, and less interested in the question of who shall administer the public domain than in that of whether that domain shall be administered along the lines which have made the settlement and development of the country possible and actual. It is no reflection on the character of the people of this Province that they consider first things first and demand as the primary duty of a Government the prompt and efficient administration of public affairs. It is only by improving the condition of the individual that the condition of the community can be improved, only by practical attention to the wants of individual communities that the welfare of the Province can be secured, and only in meeting by efficient management the primary conditions of early Provincial life can provision be made for the economical and proper solution of the problems which may be created in the process of time, by the increase of population and the complication of the conditions of life. Practical and material well-being is the foundation of national and provincial development and in shaping its policy in the early years of Provincial life to the creation of this basic condition the Government is assuming as it only can assure the future welfare of Alberta. It is quite true that a Government cannot make progress and prosperity a record of twenty years of stagnation is written in the history of the North West as witness to the fact that misgovernment can prevent progress and paralyze prosperity.

The joy of smoking

is not in looking at the smoke, but in the particular pleasure you get out of the smoke. My

Pharaoh Cigar

is a pleasant tasting, aromatic cigar.

I personally select the filler for my Pharaoh cigar in the Manicaragua district of Cuba; the binder is a Connecticut broadleaf, and the wrapper comes from Holland. It is a first-class smoke. Try one.

POLITICAL

MR. BENNETT AN OBSTRUCTIONIST.

Editor Bulletin:

Sir,—It has been said by some cynic across the line that the "only good Indian is a dead Indian." I am not going to discuss whether the gentleman who coined the expression was right or wrong, but I am free to confess that when Mr. B. Bennett was endeavoring to bolster up his theories at the Thistle rink by quotations from deceased Liberals and those retired from public life, and when he was apostrophizing the political memory of each and every one of them, we felt like saying that to Mr. Bennett and others like him, "The only good Liberal is a dead Liberal, or one who has retired from public life."

With what pathetic expression of countenance and tremor of voice does Mr. Bennett refer to the memory of such men as George Brown, Alexander Mackenzie, David Mills, and others who fought against the Conservative party in days of yore. The palliation of his beating heart, the pained expression of his countenance and the sob in his broken accents betoken a feeling of the loss that Canada has experienced in the passing of these grand old Liberals.

Will Mr. Bennett kindly tell us of the treatment these grand old Liberals received from the Bennett of their day? He will not, and his hypocritical exhibition of sympathy in their memory, and his endorsement of their utterances is of no value in the present discussion. Mr. Bennett has no right to be magnanimous with Liberal ideas. If he wants opinions from able men whose views suited him in days gone by, whose views, at the time, and whose views will suit him tomorrow, let him give his audience some extracts on the Manitoba Remedial Bill, from speeches in 1890 by Sir Charles Tupper, Sir Mackenzie Bowell and Hon. George E. Foster. These are Mr. Bennett's last words, who thought as Mr. Bennett thought in 1890, and whose thoughts are Mr. Bennett's thoughts today. If the truth were known.

Mr. Bennett, with all his platform pyrotechnics, does not give two straws for the "high ideals" and "lofty principles" that he prates about. He proved that by offering to step down and out of the present contest. If the capital could be carried to Calgary, what Mr. Bennett wants is office, and he wants it badly. He wants it so badly that he is willing to employ any means to get it. But let him tell the truth and shame the devil, and not keep on romancing about "high ideals" and "lofty principles."

AN OLD LIBERAL.

ALBERTA'S SCHOOL SYSTEM

I. The autonomy legislation continues a system that has been evolved by the residents of the Northwest Territories.

II. This system has been in operation since 1892 and has given entire satisfaction to the Protestants and to the Catholics alike.

III. It provides for a system of what is in reality a national system of education.

IV. No religious sect, no denomination, no church has anything whatever to do with the schools of the Northwest. The schools, both public and separate, are completely and absolutely under the control of the government of the new Province.

V. The text books to be used in both classes of schools are to be exactly the same in all subjects save reading for the first and second classes.

VI. The system proposed provides for a uniform course of study. This course in all classes of schools is the same.

VII. It provides for the same standard of efficiency on the part of the teachers for both classes of schools. All teachers are required to pass the same examinations and are trained in the same normal schools.

VIII. All schools are subjected to the same inspection and are to be inspected by the same inspectors.

IX. The grants to all schools are uniform, being apportioned on precisely the same basis.

X. Religious instruction is not permitted in any school till half-past three o'clock. From then until four o'clock religious instruction may be given in any school if the majority of the trustees so desire. Children whose parents do not wish them to receive such instruction are permitted to retire at 3.30 o'clock.

XI. Every member of the former legislature of the Northwest Territories has expressed himself as opposed to making any change in the present system. Ex-Premier Haultain recently stated that, if he had the power tomorrow, he would not change it.

XII. Dr. Gozgin, of Toronto, a leading educationist, says, in speaking of the school system of the Northwest, "It is the ideal system."

XIII. In 1901 there were in the Northwest Territories sixteen separate schools. Today there are ten such schools. No separate schools have been organized since 1901, but six have become dis-organized.

XIV. Rev. J. L. Carmichael, D. D., superintendent of Home Missions of the Presbyterian church in the Northwest, being asked if he considered the present school system satisfactory, said: "Most satisfactory, indeed, and I am of opinion that under the present system separate schools are much less objectionable than they might be were the principle of separation removed entirely, that is, removed in opposition to the protests of the minority."

XV. Prof. George Bryce, LL.D., of Winnipeg, replying to the same question, said: "I find the people of the Territories satisfied with the present system of education. They have as near to a public school system as is workable in Canada. In Winnipeg city today, fifteen years after the passing of our act, we have the Catholics still dissatisfied. They are paying taxes towards the support of the public schools, and maintaining parochial schools of their own. This is undesirable. Then, sixty or seventy of their schools in country places, nominally public schools, are, it is declared, being conducted as separate schools. This, again, is undesirable. Thus the Territories have practically a better working system of public schools, in so far as religious parties are concerned, than we have under our Manitoba public school system."

To Ladies and Mothers

Mrs. Astley will open in the Deggendorf Block opposite the H. B. Co's store on Saturday July 15th. Orders for bridal outfit, housekeepers outfit and every description of plain sewing will be taken and promptly executed on the premises, after July 15th, opening day.

Horse Blankets

Horse Blankets

A remark on our BLANKETS is timely.

Many horse owners are now considering HEAVY WEIGHT GOODS. Can't we interest you in our goods. The display is very attractive. Every new style of blanket that is good is shown. Most complete stock in every grade. All are strong, well made and well finished. Come and see. Some are plain. All are moderately priced, and the values are hard to beat.

We call particular attention to our stock of large Wool Street Blankets, bought direct from the mills in England. Three sizes 80x90, 90x100, 100x100.

The only Fit-Reform Wardrobe here is at
J. H. Morris & Co., Edmonton.

STRATHCONA NEWS

Interesting Items from Edmonton's Sister Town

Strathcona, Oct. 12.—Mr. J. Daly, of town, has just returned from Whitting Lake on a hunting expedition.

What might have been a serious accident occurred here this morning. While the Strathcona Brewery delivery wagon, loaded with cases, was going down the hill leading to the river, the tongue of the wagon dropped from the neck-yoke. The wagon soon was on the horses. They made a dash for freedom. The driver did his duty and the result of the mix-up was an injured horse and a general upset of the cargo.

Mr. Harris, of Kempville, Ont., who bought 160 acres in 1901 near Leduc for \$350, is in town. He is exceedingly well pleased with his investment of four years ago and notes with satisfaction the progress of our town and country since then.

Real estate in Strathcona is beginning to show signs of activity. Manager McCreary of the Chicago Bridge and Tank Co., who has travelled extensively both in the United States and Canada, is of the opinion that Edmonton and Strathcona are destined to be the "Chicago" of Western Canada and that men who invest in real estate now, in either town, may in the near future realize an abundant return.

Strathcona, Oct. 14. — Mr. Van Gilder has just returned from Smoky River where he was on a prospecting tour. He prefers the Edmonton-Strathcona district to anywhere he saw on his expedition.

The sample of potatoes in the window near the post office, which were grown by Mr. Bates, of town, shows the capabilities of our great country. J. H. Macdonald was measuring a block of land yesterday on Whyte avenue, north of his present office. It is said he purposes in the near future to erect a commodious structure, suitable to his rapidly growing business. Mr. Macdonald has faith in the immediate expansion of our great country.

The Vogel Meat and Packing Co. shipped south this morning in a refrigerator car a carload of dressed meat for the eastern market. This we understand is the initial shipment and we hope the commencement of a large trade, as the reputation of the company stands high, and expansion of business is sure to follow in the development of a new country.

"The Hottest" Oon in B.C.," presented here last night in Ross hall before a large and appreciative audience. The play was well rendered, the musical part being specially good.

Faith

You cannot be expected to have faith in Shiloh's Consumption Cure, the Lung Tonic, as a cure for Cough, Croup, and all diseases of the respiratory system, if you have not tried it. We have faith in it, and to convince you that it will cure you we guarantee it. If it doesn't cure you it costs you nothing. If it does it costs you 25c. That's fair. Try it to-day.

Shiloh

has cured many thousands of the most delicate cases, and we do not hesitate to say that it will cure your Cough, Croup, Throat or Lung trouble. If we do not believe this we would not guarantee it absolutely as we do. Shiloh has an unbroken record of success for thirty years. It has stood every scientific test without failure. Isn't that proof of its curative properties. Further

Proof

is found in the many testimonials of those who have tried Shiloh and been cured. Mrs. Annie Taylor, Asahi, Pa., writes: "I bought a bottle of Shiloh's Consumption Cure and found it very beneficial. I have two children and they had a terrible cough. I gave them everything I could think of, but they got no better until one evening my husband brought a bottle of Shiloh. We gave it to the children when they went to bed, and they slept all night. It cured them completely. I shall always keep it in the house."

SHILOH

25c. with guarantee wherever medicine is sold.

REVILLON BROTHERS, LIMITED.

NEW GRAIN ASSOCIATION

Calgary, Oct. 13.—President Strong of the recently organized Alberta Grain Dealers Association, declares that preparations will at once be made to become independent of Manitoba grading. An inspector has been appointed for Calgary, and district grading can be established. Wines will be received from Fort William each morning for the association, it is estimated that two million, five hundred thousand bushels of fall wheat were produced south of Olds this year and that next year it will be close to five million bushels. At this time in contradistinction to Turkey Red and Kansas Red, by milling capacity south of Olds, by spring, will approximate 2500 barrels daily. An effort is to be made to concentrate the milling of all Alberta grain in Alberta.

RAILWAY MATTERS

Winnipeg Free Press: Mr. Frank W. Morse, vice-president and general manager of the Grand Trunk Pacific railway, arrived in the city from Chicago this morning and was at once waited on by a Free Press reporter. The first question asked was naturally, "How are the negotiations for the joint terminals proceeding?"

"In reply to your question," said Mr. Morse, "I may say that on the 21st of September there was a meeting of the transcontinental commission, Mr. Mackenzie, Mr. Hays and myself, in Quebec, when the subject was thoroughly discussed, and it was arranged that upon my next visit to Winnipeg I would meet Mr. Mackenzie, who expected to be here, and we would proceed with the negotiations as we expected by that time to put a valuation on the property of the Canadian Northern. As it is the desire of the people of Winnipeg to have a union depot we are desirous of meeting their wishes if possible, and if the scheme can be carried through at a cost we can afford, we will be very glad to assist in establishing union terminals that will equal anything in Canada."

"Will this include the Northern Pacific and Great Northern?" asked the reporter.

"The Northern Pacific and Great Northern railways intended coming in to Winnipeg, and, like ourselves, are desirous of being in a union station. If the Grand Trunk Pacific and Canadian Northern establish such a union station, the other two roads mentioned above, will join. Should the G. T. P. not see its way clear, on account of valuation placed on the property of the Canadian Northern to join them, then likely the other two lines will go in with the Grand Trunk Pacific and erect a union depot."

"The Telegram of our city this morning had a Montreal dispatch that Foley, Lock & Larson have not received the contract for the Lake Superior branch. Is that correct?" was the next question.

"Just before leaving Montreal a contract for the entire Lake Superior branch was awarded to Messrs. Foley Bros., Larson & Co. which is practically the same firm," was Mr. Morse's reply.

"What is the extent of the construction work to be done this year?"

"The first contract to the McDonald-McMillan Co., covering 275 miles west of Portage la Prairie, is progressing satisfactorily, and we hope by the end of the year to have all our plans approved and award contracts for the remainder of the line to Edmonton, and next year, 1906, to have work progressing on the entire line between Winnipeg and Edmonton."

"It is expected that tenders will be asked for shortly on the transcontinental division of the Grand Trunk Pacific, between here and Lake Superior Junction, that is, the point where our Lake Superior branch will join the main line, and we intend to have everything in readiness, so that we can handle the 1907 crop between here and the lake. Of course, our work in the west will be progressing during that time."

"Have you anything to say regarding the Pacific terminus?"

"There is nothing now regarding the western terminus."

Mr. Morse leaves tomorrow for an inspection trip over the entire McDonald-McMillan contract, and will spend nearly three weeks on the trip. On his return he will spend some days in Winnipeg, and will then meet Mr. Wm. Mackenzie.

SENATOR GROWS WORSE.

Newton, Mass., Oct. 13.—It was announced at the Newton hospital that the condition of Senator George T. Fulford, of Brockville, Ont., was less favorable. The senator was injured in an automobile accident at West Newton on Sunday, his machine colliding with an electric car.

Messrs. H. C. Taylor, John Morris, J. H. Graydon, J. P. Wade, F. McWhigh, J. J. Dunlop returned from attending the Masonic Grand Lodge in Calgary this week. The welcome extended by the Calgary lodge and citizens could not be excelled.

CLOSING SESSIONS**OF THE TEACHERS' CONVENTION**

Resolutions Adopted Calling For Fixed Minimum Salary and Reduction in the Number of Teaching Days

The first item on the program of the Edmonton District Teachers' convention on Friday morning, was a class in supplementary literature, taught by Miss Boyle of Edmonton. The selection chosen was a short poem, which the pupils were led to appreciate through the skilful questioning of Miss Boyle. The lesson was interesting, and showed the value of literature in training the imagination.

Miss Battrick, of Edmonton, then taught a lesson illustrating her method of teaching primary reading. The pupils were taught a new sound and then led to apply their knowledge in the formation of new words. The next step was to present new words which the pupils analyzed and named. This knowledge was then used in the reading of sentences. Miss Battrick displayed excellent ability for teaching this primary work and her lesson was highly appreciated by the convention.

Mr. Hutton closed the morning session with a paper entitled "A Public School Course in Brush Work." His paper dealt with the materials required in this work, their slight expense, and the stages at which they should be introduced. He outlined the various steps of the work as taught in the Edmonton schools, and exhibited specimens of the work done.

At the afternoon session the principal feature was an address by Inspector McAlig. He reviewed the work of the convention, and complimented the teachers on the high standard of the work done in his inspectorate. He also commended the educational policy announced by Premier Lethbridge the previous evening. The main portion of the address was devoted to a discussion of the novel. The different classes of novels were dealt with and the work done by Dickens, Tackery, Eliot, etc. The novel was a comparatively recent development, and was a very popular form of literature at the present day because of its human interest, the topics dealt with, and the simple style. Mr. McAlig is optimistic about the prevalence of novel reading, and is disposed to see hopeful features in this tendency.

Then followed the reading of the minutes of the last convention.

The report of the program committee was brought in by Mr. Thompson, and that of the resolution committee by Mr. Bea.

The recommendations of the resolution committee were as follows:

1 That in the case of teachers living at a distance from the place of convention, a reasonable time be allowed for travelling to and from the convention without any deduction from the government grant.

2 That the number of teaching days for the school year be reduced from 210 to 200.

3 That the mental slant system of writing be adopted.

4 That the minimum salary in all schools be fixed at \$600. per annum.

5 That more attention be given to drill in the mechanical operations of abstract numbers in Standard II, than provided for by the course outlined in the curriculum.

6 That the grant to school libraries be increased.

7 That next year there be a public evening session of the convention.

The report of the delegates to the Territorial Teachers' Association was presented by Messrs. Thompson and Russell.

It was decided that two delegates, the president and Mr. W. H. Thompson, be sent to a representative Provincial convention to be held next July.

Mr. Ramsay reported for the library committee recommending that the management of the Association Library be left in the hands of the executive.

The election of officers was then proceeded with and resulted as follows:

Honorary president—The mayor of Strathcona.

President—Mr. G. E. Ellis, B.A.

1st Vice president—Mr. Hogan.

2nd vice president—Miss Livingston.

3rd Vice president—Mr. W. E. Hay.

Secretary treasurer — Miss Bell, Strathcona.

A vote of thanks was passed to the Edmonton school board for the use of the McKay Avenue school building for the sessions of the convention.

—The old nuisance ground will be cleared by the city and reserved as a park.

—The Epworth League of the McDougall Methodist church will give a "pic social" in the school room on Monday evening.

—The city commissioners and the solicitors owning the property east of Boundary avenue, at a meeting on Thursday reached a basis of agreement for the widening of Boundary avenue. The terms will be published in Monday's Bulletin.
